## Viewing cable 10TELAVIV11, PROGRESS WITH EGYPT ON NUCLEAR NONPROLIFERATION

If you are new to these pages, please read an introduction on the [structure of a cable](#) as well as how to [discuss them](#) with others. See also the [FAQs](#)

### Understanding cables

Every cable message consists of three parts:

- The top box shows each cables unique reference number, when and by whom it originally was sent, and what its initial classification was.
- The middle box contains the header information that is associated with the cable. It includes information about the receiver(s) as well as a general subject.
- The bottom box presents the body of the cable. The opening can contain a more specific subject, references to other cables ([browse by origin](#) to find them) or additional comment. This is followed by the main contents of the cable: a summary, a collection of specific topics and a comment section.

To understand the justification used for the classification of each cable, please use this [WikiSource](#) article as reference.

### Discussing cables

If you find meaningful or important information in a cable, please link directly to its unique reference number. Linking to a specific paragraph in the body of a cable is also possible by copying the appropriate link (to be found at the paragraph symbol). Please mark messages for social networking services like Twitter with the hash tags **#cablegate** and a hash containing the reference ID e.g. **#10TELAVIV11**.

SUBJECT: PROGRESS WITH EGYPT ON NUCLEAR NONPROLIFERATION  
ISSUES?

REF: 09 TEL AVIV 2757

Classified By: Ambassador James B. Cunningham, reasons 1.4 (b),(d)

¶1. (S) On December 31, National Security Advisor Uzi Arad told the Ambassador that on the margins of PM Netanyahu's

December 29 visit to Cairo, Arad discussed with FM Abul Gheit Egypt's on-going attempts to inject Israel into various nuclear discussions and fora. Arad described a very candid discussion in which he argued that what Egypt is doing has no effect on Israel in real terms, while real world proliferation trends are negative. Egyptian sniping at Israel creates tension in their relationship, Arad said -- but more importantly, distracts attention from genuine issues of concern (i.e., Iran) to all in the region.

¶2. (S) Arad also argued that going down the path of pursuing a Middle East Nuclear Weapons Free Zone (NWFZ) will require taking a critical look at what Syria, Iran, Libya, and even Egypt itself are doing in the nuclear field. He assured Abul Gheit that Israel, in the long term, supports a genuine NWFZ and that should be an ultimate goal.

¶3. (S) According to Arad, Abul Gheit responded that the Israeli ambassador in Vienna should seek out his Egyptian counterpart, and that there should be discussions between capitals "to see what we can do" to find common ground while showing movement toward addressing the issue. Arad took this as a positive step, and said PM Netanyahu had approved the proposed discussions in Vienna.
